Dear Commissioner Henney:

I write in support of a legal petition by the Center for Food Safety. I am distressed that, as a consumer and purchaser of the household groceries, I do not know what our food contains.

Please do not release any products with genetically-engineered ingredients until the Food and Drug Administration has long-term studies on GE foods.

Please require all food companies to label any GE ingredients, as they now have to label other ingredients.

Thank you for your attention to my letter.

Sincerely yours,

*Beverly England Williams*
